Preface

What Are They Doing To Us?

They've injected [the death jab](#) into billions of people across the globe. They're putting their [nanotech junk into food and other injectables](#). They're poisoning our air with [chemtrails and manipulating the weather](#). They're [blocking the sun](#) and darkening the sky. They're poisoning the minds of our children with Agenda 2030 trash and [gender nonsense](#). They're pushing us more and more into a digital trap where everyone must have a [digital ID](#). They want us to [stop using cash](#) and become dependent on their [digital currency](#). They want to lock us down in their [15-minute ghettos](#). They want to stuff us with [bugs and fake meat](#) instead of letting us eat healthy, real food. They've been lying to us for decades about '[climate change](#)', making us feel bad about our existence, so they can control us. They've been evoking fear and using coercion to make people succumb to [jabs nobody needed](#). They're pushing up energy, food and property prices, [forcing us all into poverty](#). They create [fake problems](#) to deliver us with their fake solutions. And so on...

We Must Stop Them

We challenged our supporters to compose a text about how we could stop those who believe they're in control of the world, using a maximum of two hundred words. The answers came pouring in, and we ended up with over eighty bite-sized essays. They are listed in chronological order, how they arrived in our email box. Unless someone gave their essay a title, we created one from the first sentence of each text. The texts are from people of various backgrounds, and some may not represent our own beliefs or convictions. However, most show that we share the same principles, values, and hopes.

The following essays are like sparks. Everyone knows that one spark can cause a grand fire. Let's make them spread until everything the perpetrators have planned is 'burnt down' and reduced to tiny ashes!

Kindling a fire at home helps to keep warm, save energy, and get rid of paper and cardboard waste, but also gives a sense of freedom. As I sit back and enjoy the flickering flames and the heat, I reflect on life. Fire is freedom. The Holy Spirit, whom Christians celebrate on Pentecost, is depicted as fire. Veni Sancte Spiritus! Come Holy Spirit!

Veronica Finch, Pentecost Monday, 2023

1. Be Brave

Be brave and fearless in standing up and speaking what we believe. Question everything asked of us; ask yourself 'Do I need to comply with this request? Why are they asking, what are their motives? How will this affect me in the future? Do I feel comfortable with giving this information or complying with the behaviour they are demanding of me?'

We must stand firmly in our sovereign ground and say NO to everything we know and believe to be wrong, always being polite and staying calm in questioning their motives.

They can achieve nothing if we simply say NO.

Julie Marie

2. The Answer

The answer lies within each of us. Only individual recognition of personal responsibility will move the needle. For many many years now, we have been edged out of that basic building block of what it is to be human and encouraged to subscribe to the concepts of 'groupthink'— which is of course no think at all. It has become the sickness of our age, and like all personal failings it is a challenge to recognise in ourselves. We will do anything rather than face it. Talk, talk, talk. As we are murdered and enslaved.

The reality is that if we want to stop them, we will have to accept that our own lives will now change forever. It's not to be feared, but we cling to our comfort blankets nevertheless, and are tempted into the controlled debate and all the other nonsense that the Filth purveys.

Reject, defy, and never, ever comply.

Joss Wynne Revans

3. To Understand

To understand what Great Britain has become, understand that you have no rights due to the Cestui Que Vie Act. When you register a thing, you give ownership away of 'The Thing'. Think of everything you register: Your child, car, home, land, business, bank account, etc. These fraudsters capitalise your name. The Trustee of your All Caps Name is the Crown. You have the use of but do not solely own anything of value, it is all securitised debt. When this debt is called in, you will lose everything, and that day is coming.

We use Police and Justice Department's involvement in fraudulent documents without disclosure to remove authority regarding charges, notifications, and citations. We can help return to you, assets you have bought and thought you owned. We can access the truth from banks into your ALL CAPS NAME and who is the responsible entity to pay your debt.

The British People have been lied to by a corrupt Government hiding the truth. We believe

The Government, Police, Justice Department, Law Society, and Courts, are criminals based on Corporate Identity Fraud and must be held accountable. We have won all cases to date. (veritaslaw-uk.com; veritaslawco@gmail.com)

Brian Neill

4. Remove the Royal Family

Remove the royal family and replace them with a Democratic Regency. A Regent to serve as head of state for two years, a full General a full Admiral, an Air Chief Marshall. Disband the Privy Council and any other lineage of the same. Disband the current house of lords and replace them with a house of committee (200 all professional). Disband all political parties and replace them with 400 independent MPs (maximin use of modern communications). We do not want a president; they are more trouble than they are worth.

Michael Holloway

5. My Mantra

My mantra for a while has been JUST SAY NO!

Joy Termorshuizen

6. Contact Every Organization

Contact every organization that is against this and plan one massive day and time for as many people as possible, into the million, to descend on the houses of parliament to take over this country. If there are enough to overwhelm the police etc we will win. I see no other alternative. I am disabled and have not attended any demonstrations in London to date, but one such as this I would.

Ronald Templeman

7. Imagine

Imagine a beautiful, wondrous world that contains everything to sustain and delight *all* people within it in peace, harmony and abundance. God is praised, worshipped, honoured and new blessings of all kinds are showered upon His creation as a result. Next, imagine a world where God's forcefully been 'pushed out' by those who want not to share/marvel/enjoy but to control/enslave/destroy/kill. Their horrifying dystopia grows and eventually dominates, where '...our struggle is not against flesh and blood, but

against the rulers, against the authorities, against the powers of this dark world and against the spiritual forces of evil in the heavenly realms.’ (Ephesians 6:12)

St Paul reveals the antidote to such colossal evil within Ephesians 6:13–16 via a range of spiritual means. Make no mistake, what’s occurring now is a raging stratospheric battle between good and evil. Lord Jesus Christ Himself, when exorcising demons, said that ‘This kind cannot come out, except by prayer and fasting.’ (Matthew 9:29) The axiom: ‘Evil, within itself, contains the seeds of its own destruction,’ is demonstrably true. However, effective human action against evil can only occur via turning God-wards to discern next step(s). Deus Vult!

Claire McGrath

8. We Stop Paying Them

We stop paying them to do what they are doing to us. It can be this simple. If we can coordinate the majority of people to stop paying their council taxes and their government taxes, our corrupt governments and councillors will be out of pocket and out of a job. We can put the money into a fund and elect honest people who actually care.

Tara Zenker

9. The People Can Stop Them!

Collect all farmers to advertise they are not going to inject food stocks with MRNA. Advertise with a mark online or website, which farmers are with the people, to note that they are not taking part in drug injections.

Set up a new bank– the people’s bank of the GB. Collectively this will be our bank, not Davos/BIS.

Blockade any Politician signing away our sovereignty rights from his/her home.

Set up a radio station with 24/7 broadcasting of the next big things the Davos/WEF cartel are about to consider implementing.

Further actions as things continue.

M L Green

10. Pray

Pray. Prayer is a powerful weapon against evil. There is a spiritual battle going on. Prayer can ensure our victory. The evil elite do not want us to pray as prayer diminishes their power.

Create. Using our God given gifts whether in visual arts, writing or music, uplifts us. The evil elite do not want us to create as they want to have power over us by keeping us

afraid.

Enjoy living. Enjoying the life that we have here on earth connects us with the beauty of nature and with each other. The evil elite do not want us to be happy and enjoying our lives because their intention is to destroy.

Love. Love is a most powerful life force. It banishes fear. The evil elite do not want us to love as they want us to be divided, fearful and controllable.

Connect. Connection with our Creator, with nature, with friends and family and anyone who crosses our path, gives us a sense of belonging and purpose. The evil elite do not want us to connect or be here.

Be healthy. Ensuring our physical, mental, and spiritual wellbeing defeats the evil elite's plans as they want us dead.

Jan Sugden

11. From This Place of Darkness

From this place of darkness, how do we win? How do we reclaim our sovereignty?
My friends, we must start from a place of love.

Love is what they are starved of, immune to, estranged from...

When you find a soul you connect with, keep them close, nurture and support them, you will need them in the coming months and years.

Most importantly, detach yourself from the beast system, guard your identity with your life, this is what makes you unique.

Your uniqueness is what they wish to destroy, they despise you for it, they crave its destruction...

So say NO.

Avoid engagement with all established healthcare systems, they are NOT there to promote your wellbeing, they are there to steal it. From their flawed belief in contagion, they are unable to engage in reasoned debate. They have a pathologic drive to ensure you are perpetually medicated and injected with the latest poison. Do not allow them access to your children.

Stand in your truth and hold dear all that you inherently know to be true. Truth will keep us on the right path and ultimately will guide us into the light, and from there, into freedom.

Cherry Hughes

12. Use Purchasing as an Offensive

Weapon

Use purchasing as an offensive weapon against our enemies. Money spent either enriches foes or strengthens compatriots. Avoid large companies. Seek out small or local enterprises to fulfil your needs. Query the small organizations to determine if they are pro-freedom. If they are anti-freedom, walk away, shaking the dust off your shoes as you go. If they are neutral, encourage and warn them. Those seeking your money are either for you or against you. The neutral ones are only temporarily so. Your money is your safe, legal, and effective weapon. Shamelessly promote pro-freedom vendors. Don't be shy, be blunt. Some may go along just to get your money. That is fine. Cultivate new sources for the goods you seek: local markets, local gardeners, local butchers, and local cafes. You can't impact the power company and other mega-enterprises, but you can stop ordering from Amazon, you can find alternatives. You can do something about your other needs. And above all, don't buy or consume media from your enemy. They purvey poison, don't consume it.

Randall Bachman

13. Fear and Confusion

Fear and confusion has been the major tool employed by these would-be world rulers.

We must plan on the opposite of fear and confusion. I propose that the opposite of fear is 'Informed and confident'.

The opposite of confusion is 'informed, united and knowing'.

There are dozens, probably hundreds of individuals acting to protect their lifestyle and individually employing their own methods to neutralise and oppose the would-be world rulers. All these groups should be brought together under one organisation with common aims, and democratically elected representatives.

Amongst the aims I suggest are:

To assemble all supportive persons into one organisation.

Be aware that evil spies will be very focussed in their usual objectives of confusion, defamation, disorientation, and block all attempts to dismantle their objectives.

The spies will do their utmost to infiltrate our management and direction.

Amongst the hundreds of people currently working to oppose the would-be world leaders there should be recognised divisions of skills to report to the central authority. For example, 1) scientific 2) record-keeping 3) fact-checking 4) legal challenge 5) funding 6) publicity 7) political 8) dispute resolution, internal and external 9) election of officers.

George Paris

14. Message to the Earthly Powers That

Be

You think you know me
but you don't know me
You don't own me and you never will.

You might think the threat of a needle
or no money in the bank
can scare me into submission
but you don't know the real me.

You might think because you monitor
every word I write on the keys
and watch every move I make on the streets,
that you know what my next move will be
but you don't know me.

Only God knows me,
the One you think you have replaced.
More fool you.
Only God is your judge
as you will find out eventually.

Only God is my judge.
Only through Him will I ever be free.
Only to Him will I bend the knee.

Liz Pilgrim

15. You Asked

You asked for ideas. I have many. They will come to pass and die horrible deaths.
Total surveillance of leadership. I would want my leaders surveilled.

The people need to start demanding total surveillance of leadership. Once this hurdle is crossed, all forms of government world-capture will be denuded and alleviated. It seems ridiculous but surveillance is a very real form of control. Your leadership is captured.

16. Protect, Survive and Thrive

We are faced with multiple threats from the UK government. The WEF has openly admitted to infiltrating most governments around the world; therefore, no part of our country can be considered safe. As a general rule of thumb, use critical thinking and consider doing the opposite of the government's instructions.

The government's injectables can cause injury and death. Even 'vaccines' previously considered safe are now modified to be the mRNA type. Avoid these at all costs. If you are forced to have any injections, immediately begin a detox to mitigate the side effects.

worldcouncilforhealth.org/resources/spike-protein-detox-guide

Use water purifiers and filtration systems.

Avoid processed foods; use farm shops, local growers, and allotments; learn foraging and hunting skills; download useful videos to hard drives; buy old books on plants, animals, food storage, and preparation; and vote with your cash. Use only cash; refuse to use cards. Accept inconvenience and decline digital ID; use 2G phones; bombard council meetings with objections to 15-minute cities; and be polite, insistent, and well informed. Turn off the Wi-Fi. Get children out of school.

Stay happy and healthy; do not listen to the MSM. Live free from fear and join like-minded people. astandinthepark.org

Ray and Carolyn

17. Don't Acquiesce

Don't acquiesce and stand up with peaceful protests to let them know we won't take it anymore. The time has come when Enough is Enough.

Gillian Cockwill

18. We Are Being Attacked

We are being attacked on three dimensions– physical, mental and spiritual– therefore we must resist on all three.

Physical:

- refuse jabs, lockdowns, masks, CBDC, digital ID, 15-minute cities, 5G, etc.
- join together in peaceful non-compliance to demonstrate strength and unity
- take legal action to prevent further atrocities
- provide practical support to those who are struggling

- grow food, eat a healthy diet, learn about natural healthcare

Mental:

- rise out of fear and help others to do so
- ignore propaganda on MSM and social networks
- resist psyops
- defy all attempts to divide us based on race, gender, beliefs, etc.
- become informed, and educate others who have not yet awoken

Spiritual:

- declare and demonstrate love for all of humanity and all life
- connect to higher realms and ask for wisdom, strength, and guidance
- channel light from the higher realms to drive out evil
- help those who are in trouble physically, mentally and/or spiritually
- try to forgive those who have harmed others in ignorance and fear

Sarah

19. Everyone Knows

Everyone knows there's something wrong. Listen to them. Nudge them with additional information. Create an atmosphere of discussion rather than confrontation.

At work: Should we be doing this? Lead up to people speaking more overtly. When they're ready, ask them how many elements there are to Parliament (three), who decides on military action abroad (the PM), who ratifies international treaties (the PM). We have an 'elective dictatorship'. Should we? The King and the PM are working with WEF above elected MPs. Campaign to remove the Royal Prerogative. What organisations are leading MPs members of? Compile a list: eg: Keir Starmer: The Trilateral Commission. Ask them, badger them. How many are working towards a one-world dictatorial government? Specific issues will arise on the way, like mRNA deaths, man-made global warming (still call it that!). Distribute key material, eg: 'The Masterminds of the EU Why every EU citizen is at war today' (kla.tv/26041), Nigel Farage's EP speech on George Soros, Neil Oliver's monologues. If their concerns are about money, ask them where money comes from, leading to campaigning for the abolition of forgery by updating the Forgery Act to include computers. Keep talking and drawing attention to project fear.

Ian Fantom

20. Everything You Do

'Everything you do is insignificant but it's important you do it anyway'. So said Gandhi. Big Brother wants us to believe that all resistance is futile. The Ruling Class wants us to believe that even if we know what's going on, we can't do anything to stop it. Some people use the example of a million people hitting the streets in 2003, protesting about the imminent Iraq War. The War still happened, and millions died. The counter argument is simple. If you fight back against evil, you might not win. But if you don't fight back, then there's no way you can win. Therefore, we should always fight back. People are sick of being treated like infants and tracked like livestock. We need to be mindful that the very technology being used to try and enslave us, can also be used against the perpetrators of tyranny. One person with a mobile phone can reach an audience of millions in a few days. The first step in fighting back is deciding to adopt a defiant mindset and realising that there is no alternative. To misquote the Mexican revolutionary Zapata: 'It's better to live standing up than die on your knees'.

Stephen Hunt

21. The Problem We Face

The problem we face is lack of authority and, as individuals, we are not entitled to assume authority. However, I think there is a solution:

To me it appears as if we are living through the times predicted by Our Blessed Saviour in St Matthew Chapter 24 and by Our Lady at La Salette: (1) Rome has lost the Faith. (2) Since the Second Vatican Council we have suffered from the abomination of desolation standing in the holy place. (3) We are clearly living through a time of great tribulation and (4) We notice numerous siren voices calling out 'Here is Christ.' To which should we go?

And what does Our Blessed Saviour tell us to do when this happens? In verse 26 He says 'Go ye not out.'

That, to me, is real authority speaking. He is assuring us that we will be safe if we pray at home under the protection of Our Lady. It was she who protected the Apostles after The Passion.

I have long believed that we are living through the Passion of the Mystical Body of Christ, and, if so, that we should seek the same protection that the Apostles sought after Good Friday.

Hugh Williams

22. I Have Thought for More Than Two Years

I have thought for more than two years now on how to stop our current path. Most won't like what I suggest but it is absolutely vital. Smash and throw your TV away. Cancel all your subscriptions and finally cancel your TV license. Buy and read old books. I draw cash out and pay with that instead. I'll walk out of shops that won't accept cash but not before I've made a little light noise about how important cash is to me. Minimise your dependency on electricity, we use strip LED lights at night and charge up a spare leisure battery in the car. The solenoid and cabling to do this are cheap and usually sold in a set. Don't give the electric company more money than you have to. Collect rainwater and use it for washing, flushing etc. Stop buying from corporations, make what you have last longer. Turn your back on it all. Sell and downscale to eradicate debt. Settle all debt, ALL of it. Lastly everyone must have a plan B, where you'd go to unite for safety. Good luck.

U Canrun

23. Contemporary Communism

There are two types of Communism operating in the 'West' today and the only things they share in common is that: Firstly, they both follow a 'religion' which seeks to take down the 'West', in order to replace it with their own form of 'Fairylnd'. Secondly, they both crave power and are willing to destroy human beings to achieve it. The two forms of Communism are...

- Common Communism. This is the type we associate with Karl Marx, Jeremy Corbyn, scruffy activists, academics, and the Labour Party. It is antisemitic; and many of its adherents (except the academics!) are far from wealthy. Their version of 'Fairylnd' is the old Soviet Union.
- Globalist Communism. This is the antithesis of the 'common' type of Communism. Its adherents are uniformly some of the wealthiest people on the planet, and belong to no 'nation', preferring to see themselves as 'citizens-of-the-world'. However, they do enrol those who imagine themselves to be 'important' in the Globalist-Communists' version of 'Fairylnd'— often called The Great Re-Set.

Unfortunately, the common Communists have been allowing themselves to be used by the Globalist-Communists, along with the followers of Mohammed, for around three decades.

24. We Need Millions

We need millions of us to surround the Houses of parliament and deny access to or from the building in a peaceful protest...for days on end.

Gareth Stell

25. Request That the Government Conduct

Request that the Government conduct a proper 'vaccinated versus unvaccinated' study. If the Government is genuine in its desire to encourage people to trust vaccines, surely the best way for it to do so would be to conduct an independent study of the long-term health outcomes of children who have been given all the recommended childhood vaccines, and compare with those children who have not had any. (I had contemplated refusing to pay taxes unless the Government did this but might make one more arrestable etc.)

Suzi Cuttle

26. We Remain

1 . We remain a constitutional monarchy.

2. The main driving force behind most contemporary contentious issues– Net Zero, CBCD, Digital ID, and abolition of cash transactions is from unelected, unaccountable organisations such as the WEF and WHO.

3. IMO there can be no help or redress from political parties due mainly to the complete censorship of political public debate by the MSM, academia, the medical and political establishment most of which have been captured by the 'woke' (new cultural Marxism).

4. Opposition therefore is primarily to be constitutional not political.

5. We have a legal/constitutional right to petition the monarch under the authority of our Common Law Constitution (Magna Carta Article 61 can still be invoked in this respect).

6. This now becomes our duty as well as right. In some way we must remind King Charles that in the Coronation Oath he has sworn to uphold our Common law Constitution based on Magna Carta and exclusive commitment to we, the people.

We need to petition the King asking him to refuse the Royal Assent to any government

Bill that poses a threat to our historic rights and liberties via proposals from the WEF, or WHO, for CBCDs, 15-minute cities, or digital ID cards.

Graham Wood

27. The Only Way

The only way to defeat the globalists is to undertake a prayer invoking the higher spiritual powers before entering into battle with the tyrants/abusers. This is the only power they cannot win. Our aim should be to help humanity without the desire for reward and recognition– this condition alone states the universe will come to our aid.

Kamaljit Shinh

28. We Are in the Midst of a Silent War

We are in the midst of a silent war and our biggest enemy is not those at the forefront of the war enacting their strategies for global control. After all, they can. It is the believers; those who are asleep and have been brainwashed by the propaganda. Those who watch the State Television, those who follow the woke agenda, the corporatists who virtue signal...the list goes on.

To my mind, there is only one solution and that is for every single resistance group and spokesperson to align and soon.

We need a global activist to bring together the disparate groups such as The White Rose, The Exposé, Together, Mark Crispin Miller, Maajid Nawaz, Neil Oliver, Mark Steyn, David Clews, StopWorldcontrol, America's Frontline Doctors, Reclaim the Net and Russell Brand to name but a few of the individuals and groups out there spreading the word.

Initially, research will need to be conducted across the globe to identify all the groups and activists. The advantages of combining all groups into one additional group are numerous– the fundraising, the power of the messaging, the global reach, and the difficulty in being able to label such a far-reaching group as conspiracy theorists.

Gabrielle

29. Ideology Cannot Be Defeated With Violence

Ideology cannot be defeated with violence. But you can undermine lies by telling the obvious truth.

Truth is, Physics is easy but it's the Achilles heel of God so you're told that it's hard and you can't do it, plus it gets taught wrong anyway. Truth is, we all speak the same lan-

guage on this planet, but only those with the light know it. Truth is, those of us outside society are too distracted by everything wrong with us to ever know what love is. And that's really what's wrong with us and what we have not.

Not knowing these utter realities is the definition of being blind. And your ability to relate to anyone beyond an animal will be impaired. The brains of your descendants will shrink as you ignore your own inadequacies. And society will hover over the face of your gene. Your ability to cook: withdrawn for your convenience; your ability to read and write: withdrawn for your convenience; your ability to recognise someone's face- all done by computers.

Why doesn't anyone know what motivates a school shooter? Why can't they find the Higgs boson? What a mystery.

Kass

30. Your List

Your list 'What are they doing to us' clearly indicates that there is no simple answer to these issues, which affect the whole of the 'civilised' western 'democracies'. Only a serious crisis such as a major war can awaken our people from a national stupor created by our 'bread and circuses' society. However, if the megalomaniac in Downing Street has his way it won't be long before such a crisis will arise.

It is clear that only a military takeover can rid us of our destructive government. Regrettably a form of violence may be necessary in order to create a new political constitution. Owing to vested interests our present system based on adversarial political parties has never worked and never will work. How often have we seen in third world countries a military takeover prior to a new constitution (for good or evil). Are we not now a third world country? We need to seek powerful friends in the military.

Duncan Lorriman

31. Words

I personally, don't believe in either paperwork or language. Or put another way, is there not too much of both? What happened to silence? What happened to looking into another's eyes and knowing. Or do we only do that in workshops? Knowing how 'the other' is, feels, cares, or needs. Lovers look into each other's eyes and feel the love that is there. Words only seemingly get in the way. There is so much depth, so much to feel in those gazes. The language of the heart, the language of the human in truth to self, to the other.

In this place of silence, this place of knowing, is where our absolute sovereignty lies. The power of it is phenomenal. There is no movement, yet it has the power of the planets moving through the heavens. We are nothing, yet it is everything we are in that moment.

We have become harnessed with these words and paper. Harnessed into slavery, our power

squashed to dribble from our mouths.

It is time, for we are nearly out of it, to stand individually and as one humanity, quite simply knowing our sovereignty without rancor or doubt and live as we are designed.

Conrad

32. Your Right to Decide

Your right to decide
If they lied

Whether to be spiked
by government right
First coerced, then hearsed
Your immunity stronger?
Or perhaps no longer
able to function.
Health junction.
Now to compound
Perhaps you've found
freedoms are fading,
Police raiding.
People lose
the right to move,
the right to choose,
even to protest,
maybe you've noticed?
Stand up and be counted,
before you're discounted
Locked down and puzzled
Endlessly muzzled.

John Harington

33. Stopping It!

We need to touch people's emotions to get them to do anything! We must use the cabal's global policy against them! We need to reveal to the world the WEF's plans for children plus the ongoing extent and depth of child abuse/trafficking in all its forms, across the globe. We need to protect the children of today and tomorrow, through massive

(and shocking!) awareness campaigns followed by worldwide non-violent, quiet, and peaceful protests to be held at the same time globally with swarms of humanity, sitting down on the ground quietly, outside parliaments/townhalls everywhere. The welfare of children is an emotive subject. Touch the people of the world emotionally and they will take action! We must not feed the current evil by being fearful or aggressive– that is what they want. We would be playing into ‘their’ hands. The cabal have spread evil globally– we need to spread awareness of the cabal’s plans for children in every country. Peaceful protest. It is our duty as adults to love and protect the world’s children from the current tyranny etc. Defeat the cabal with global non-violent peaceful protests for the future of children.

Peter the Rock

34. Ladies and Gentlemen

Sadly I don’t think that stopping them is a viable option anymore. They are supported by the majority. And that majority will not only comply with all the rules– it will fight to protect them due to its unshakeable ignorance.

What I suggest is exodus. We, the bunch of sound and wise, should withdraw and leave. Create an alternative community, perhaps the beginning of the new civilisation. We have to preserve the normality. Otherwise– this machine will terminate everything. No-one will remain.

How exactly shall we go about creating this community?

Well, perhaps we could create one global international website/social network. And do it ASAP. There we can come up with a mutually agreed plan. Maybe even crowdfund the purchase of some land (anywhere on the globe) and hopefully even move to that new land. Before 2025! (youtu.be/Qk9Nd4uhJQg)

Just like American continent was ‘conquered’ in 1492, it is our duty now to begin a New World. The world of normal people.

Nick N.

35. Always Lead With Kindness

Always lead with kindness and follow your heart. Learn to say NO thank you and avoid bullies and liars. The right solution is there, never give up until you find it. Most important, prevention is the cure.

Use synonyms instead of names. GreedyProfiteers. Knucklehead. Elites are Emotionally vacant.

Change their verbiage to your instructive narrative.

Gene-edit gmo crops *failed*. Disrupts your digestion. Side effects *not* limited to Leaky Gut, IBS, cancer.

GreedyProfiteer ill advised fake meat. Contact your fresh food suppliers, tell them avoid Apeel, Edipeel. Devil in details.

Gene-edited vaccines *failed* destroying healthy people with sickness and death– SADS.

Dimming the sun does *more* harm. Overhead spraying is toxic, causing flu like symptoms and lethargy. Also called geo-engineering, climate engineering, weather modification, chem trails, aerosol clouds.

Closed minded people don't listen, so ask them a question: Did you know PCR test uses re-search tool that does *not* detect infection?

Ask your mayor, council members, who is spraying, what exactly are they spraying and what does that cost?

Global warming resulted from industry *not* taking responsibility to clean up their waste and pollution. Plastic debris is choking the ocean.

Respect for nature and each other is the equity we need. We are all nature!

Susan Elaine

36. I Don't Need a Whole Essay

I don't need a whole essay, just a few facts.

1. CO2 has no capability of warming our climate.
2. There is no greenhouse effect.

We experience what is best described as a blanket effect. Any effect of CO2 is on a logarithmic scale diminishing effect, and most is seen in the first 100ppm.

Universities and professors write that over 350ppm no measurable heating was found. As we are over 400ppm currently how can CO2 cause any climate emergency?

Climate changes, and it always has. Whatever happens, happens and not because of any carbon footprint– that is deception. Never listen to liars on any argument, it's what they do in a Hegelian managed crisis.

Any questions?

Brin Jenkins

37. The Reluctant Warrior

A simple life, I had, but it was free,
A week in the sun and a few quid clear,
Just for something new or the odd pint of beer,
I didn't, in my lifetime, think I would see,
Draconian rule and moral anarchy,

People driven by lies and cowering in fear,
Abandoned, bankrupted; the time is near,
When it will no longer be safe to disagree.
It's time to find courage and say what is right,
Remember, we are many, they are few,
Banish the darkness, bring forth love and light,
It is up to us to build our world anew.
A life lived in fear is no life at all,
Don't stagger, don't fall, but answer the call.

Eileen Coyne

38. Locally-Based Money Solutions

Local currencies can diminish the impact of enforced digital currencies, by enabling the exchange of goods and services in a parallel informal economy based on a particular locality. There are two main approaches:

- a) Time banks trade in the hours each person spends in supplying services, at the same rate regardless of the skill level, and are a mutual exchange of 'favours'. They foster inclusion for many who would otherwise struggle to participate in any kind of economic activity and can improve mental health. See timebanking.org or timebankingscotland.org.uk
- b) Local Exchange Trading Systems (LETS) trade in both goods and services (hence are more versatile), and users may sometimes charge higher rates for work that requires expert input. There are some long-running schemes in the UK. See letslink.org, letslinkuk.net and letsf.org.uk/resources/links/lets-in-the-uk

Another type of local finance is the credit union, a self-help co-operative which uses the mainstream currency and pools members' savings to make loans. Unlike the banks, they only loan money that they possess, and do not make profits for outside shareholders. They charge lower interest rates than banks, and savings are protected to the same limit as the banks. See www.abcul.coop/home

Phreemind

39. We Have a Multi-Pronged Effort Before Us

We have a multi-pronged effort before us. Legal, ethical, medical, political, and psychological. We are against a globalist coup d'état, pharmaceutical corruption and deceit, a globalist influence on governments, psychological warfare by the state on the population, propaganda instead of truth, a corrupted press and BBC with very little of the

balanced reporting that journalism should be engaged in. We have a badly educated medical profession where doctors are not allowed to treat their patients as they think best, according to their training.

We can all do our bit. One of the best ways is by saying NO! We can keep in touch with our MP. We can write to our newspapers and BBC. We can speak out whenever we can. We can support campaigns and write to our local councils. Take every opportunity to get the message across as the good book says– ‘in season and out of season.’

Everything that we do should be done in love because love will eventually conquer. Time is very short and we must all do what we can. Above all we must continue to pray until the day dawns and the sun will rise over the horizon of truth and justice.

John Powell

40. How to Defeat the WEF

The battle is a spiritual battle between good and evil, life and death. The attack is on our children’s innocence, on our bodies and on our freedom.

A spiritual battle requires us most of all to use spiritual weapons of prayer, reaching out to God seeking to listen to His voice and asking for wisdom and discernment. We must pray that God would send His Spirit, change minds and hearts, and reveal His truth. It also requires individuals to come together into communities to support and help each other. We must learn to become more self-reliant.

I also believe that more people need to become involved in politics. We need to ensure that our next Government is not run by any of the major parties as they are all corrupt and following the same agenda. However, there are a number of small political parties which do have good policies and are actually for the people and not against them. These parties need more people to become involved and to stand as candidates. This would be a great way of getting the message out to more and more people about what is going on.

Ruth Wyatt

41. Like Any Bully

Like any bully (I’m using this term for demo only, they have far exceeded this term), they have surrounded themselves with cannon fodder in order to protect themselves from their crimes against all that exists.

We must expose who all of them are, expose their crimes and deal with them accordingly. Treason is the death penalty. Murder is the death penalty. Genocide is the death penalty. Rape and brutalization of children and others should be the death penalty. Perhaps all other crimes against humanity will call for a lesser punishment than the death penalty.

Nikkig

42. The Division and Anger

The division and anger in society is escalating. Parents struggle to keep their own emotional balance, their families together, and provide the basics of life. Fear, poverty, warmongering and wild weather add to the angst.

Not wanting to subject our bodies to governmental control led to the early societal imbalance and resulted in accusations of right-wing extremism. Media, politicians, and entertainers denounced those who chose not to take the experimental vaccine as 'granny killers' and openly shamed them in an unprecedented public outcry. Those brave enough to withstand the onslaught lost jobs and family connections and were shunned.

Then came the political accusations of fermenting hate: being labelled a Trumpist, racist, Nazi, spreader of misinformation.

Good, kind, thoughtful people who volunteered in their communities and said 'God bless everyone' in their childrens' prayers, were now lepers; if they waved a flag in support of the right to choose, that was their leper's bell for all to see and condemn.

We can find fellowship in community, trying to avoid increasing government surveillance and control, or become invisible, fearful, and quiet to avoid the inquisition's suspicion. Freedom?

Paula Foot

43. How to Avoid Digital Slavery

We the people united can defeat the Globalist plans. We put the likes of Google, Facebook, YouTube etc in the powerful position they enjoy today by subscribing to their platforms and by withdrawing that support they become nothing. I give two examples, Toby Young and The Freedom of Speech Organisation versus PayPal, and when our Government issued an ultimatum to the NHS and Care Home Workers (who had not as yet taken the Covid Vaccine) to do so by March 2022 or lose their jobs. Over 150,000 people stood their ground and the Government backed down! That is 'People Power'. I believe if we are united, we can bring anyone down including Governments and all who wish to destroy democracy. I suggest once a week we do not turn on digital phones and computers and continue to do this until our voice is heard. The beauty of this is it's all done peacefully! I warn people about the benefits of cash and the dangers of digital money which has been appreciated and will continue to do so.

Glennis Rees

44. They Want Us to Believe Their Lies

They want us to believe their lies, not truth. They expect us to obey their dictates.

They want us to worship their gods, (the earth, sex, or gender) not the only Almighty God.

They want older folk, and those they consider of no value to die or disappear, (voluntarily, or by jib jabs).

They arrest, imprison, prosecute, or persecute us for daring to disagree with them, or their lies.

They now arrest and prosecute us if we dare to pray in the street or share Bible truth:

They disrespect, denounce, and defile us for not complying with any of the above.

But our Heavenly Father loves us and gives us truth.

Gives us free will to choose what to read, or believe, and to obey His rules for a fulfilled and happy life.

Made us male or female.

Sent Jesus to save us from sin, to give us a relationship with Him.

Sees us all as 'very good' and precious because He gave us life, and all resources needed for a happy, holy life of worship and service.

Jesus completed the Father's plans for us on the cross. If we are on His side, we are on the winning side.

Delightful Dee

45. The Actual Number

The actual number of those loathsome creeps– arrogant, bullying cowards who control and are ruining our world– is incredibly small, mere hundreds out of billions! They are served by hordes of fickle, brainwashed sycophants. And the sheepish multitudes, blindly trusting no-longer trustworthy institutions, think they can hide in a non-existent 'middle ground'. They are, in reality, timorously seeking the futile shelter of shell holes in No Man's Land.

People are finally waking up but must heed the advice given to the Romans, 'beware those who cause divisions and create obstacles.' Too hesitant, we await someone else's lead, awed by the inspiring examples, scattered throughout the world, of principled people who display great courage. Yet the Hydra can only be finally slain if, along with those good people, we make the worldwide alliance a reality, as Archbishop Vigano, Jim Caviezel and others have already urged. This is what the enemy most fears.

Mike Yeadon speaks of 'a murderous attack on humanity.' Today the 'Front Line' is everywhere. We have a simple choice, shell hole or trench? Power is calling us to take it back, step by step, if we have the united will and determination. And so, hope returns.

John Dennison

46. We've Got to Stop Them! ... Have We?

We are witnessing a war between good and evil, God and Satan. Satan, the 'father of lies', is losing his grip upon power, and is doing all he can to retain it.

He is, however, a defeated foe. He was defeated two thousand years ago, when Jesus died on the cross!

Who is winning the war? Jesus is winning! Satan's grubby, evil reign will fall apart.

Jesus warned us of this 'end of the age' with its wars, famines, pestilences, and earthquakes, whilst Satan is trying to destroy mankind, his evil is being exposed and he will be destroyed.

Put yourself under Christ's wing; 'He that is for us is much greater than he that is in the world.'

Remember the Lord's prayer? 'Thy kingdom come, thy will be done, on earth as it is in heaven.' We desperately need His will to be done on earth. Start praying for it!

Keep spreading the word; make others aware of the evil plot against them but tell them the Good News too...something better is coming beyond this madness and mayhem!

'Be strong and of good courage; do not be afraid, nor be dismayed, for the Lord your God is with you wherever you go.'

Abigail

47. General Rule of Thumb

General rule of thumb, use critical thinking and consider doing the opposite of the government's instructions.

Plan for survival and know your environment. Find safe places and resources in your locality.

Have a small bug-out bag with small essentials. Clothing, bedding, camping stoves, toilet articles, tin and bottle openers, first aid kits, avoiding government food and drugs where possible, using natural medicines, knowing how to use them, and where to find them.

Find nearby water and food sources. Know how to purify water, the things around you that are edible, and how to build fires. Build reserves of long-term, storable food supplies, fuel supplies, solar energy packs, CB radios, and reference books. Build your speakeasy network, stand in the park groups, and know the people you can trust. This knowledge will make you confident and enable you and your loved ones to decline digital ID and CBDC and avoid being lured into government dependency and control systems. Connect with nature in spiritual and physical ways. Nature is your friend. Become part of a better future and help in the exponential growth of networks that just want the best for their fellow humans. Don't wait; do it now.

Ray Wilson

48. Stop Using Mobile Phones

Stop using mobile phones, just disconnect, it's not like we don't know life without them. From where I'm sitting, it's the only thing I can see to do, apart from the obvious, use cash, don't comply, keep spreading the true word, using the word NO!

Trace

49. Tyranny Seemed Likely

Tyranny seemed likely, and now looks undeniable. It's hardly worth asking any more. At this point, it's hoping for the best and preparing for the worst.

Depending on the State, like Britain is used to, leaves you vulnerable if it turns nasty. So, don't put your life on hold trying to change their minds, or hoping someone in authority will fix things. Think about an attitude of enlightened self-reliance. We are resourceful and adaptable when we put our minds to it: what can you do to become more resilient? If tyranny comes, how will you maintain your life? How will you be able to support the people you care about?

History has a lot to say about fortitude: Adversity is hard, but it is what humans are evolved for; psychological adversity can be mastered just like physical hardship; facing difficult times together produces meaning and character and connection that will stay with you for the rest of your life. Wisdom and civilisation are freely available to anyone who cares to look into them.

Don't wait.

Dylan

50. The Holy Bible

The Holy Bible says evil men and imposters will grow worse and worse, deceiving and being deceived (Timothy 2:12–13). We are definitely living in these times, the last days, and Jesus will return very soon for His Bride, the Holy Spirit filled Church! We don't wish to be left behind when this happens to endure the great tribulation which is soon to come on the whole earth. So be ready and watchful. Trust the Lord with all your heart; do not depend on your own understanding. Seek His will in all you do, and He will direct your paths (Proverbs 3:5–6). Fear not, the Lord is still on His throne (Psalm 2). Make sure you know Him and if not, pray the ABC prayer of salvation. Today is the day of salvation. If I die tomorrow, will I go to heaven? Why would anyone put off the most important decision they could ever make in their lives concerning eternal life? For it is by grace you have been saved, through faith, and this is not from yourselves, it is the gift of God— not by works, so that none can boast (Ephesians 2:8–9).

A. Admit you are a sinner and you need a Saviour (Romans 3:23). All have fallen short of

the glory of God, the wage of sin is death (Romans 6:23). He dies for us; it is a free gift! Jesus paid in full for all our sins, past, present, and future. What a wonderful gift!

B. Believe in your heart Jesus Christ is Lord (Romans 10:9–10).

C. Call on the name of the Lord. Confess with your mouth Jesus is Lord & God raised Him from the dead (Romans 10:13). All who call on the name of the Lord will be saved.

Helen

51. Pandemic Covid-19 (Written During First Lockdown)

Upon this earth I do dwell
A story from the heart I tell
The story begins with Mother Earth sad
She started to weep, then became mad
She noticed mankind was being phased out
By the greedy, the powerful, the men with clout
The ones who walk in the power spaces
People who are hidden, the unknown faces
Who lie, manipulate, control the world
Whose aim is to steal all the silver and gold
They walk the corridors of time deceiving
The masses scared, unsure but believing
The control hungry who crave power and wealth
They'll stop at nothing, even our health
These people who poison our mind, body and soul
Who use biological warfare to destroy our goal
To have 'Peace on Earth' and goodwill to all men
Awaken mankind, awaken again.

Anita

52. I Do Not Do Social Media

I do not do social media nor trust their networks! I am on Gab and also Brighteon Social. These platforms are independently owned and Mike Adams the founder of Brighteon who stands for liberty and independence and many people like myself in the UK are on his site. He also invites many truth speaking and interesting people to speak on his

site. Gab is a Christian owner and Gab TV is free also his social site has many Brit topics. So, forget 'Farceblock' and 'Twatty' as they support grot media and the big moneybags and the WEF!

Everything I would like to email would be censored and recorded by the algorithms.

So please consider what I have written because there are alternative platforms where the British public could be aware of your courageous stand and enlighten the British people before it is too late with CBDC and world domination.

Joe David

53. Liberty Chips

To fight, resist, and win, you need to develop methods and systems that are equal to, or even greater than, what is pushing against you. You can also cripple the system enough that it cannot sustain itself.

A technocracy is an environment where you are held hostage in a digital system that requires your participation in order to survive. It's in all the sci-fi movies, and we are at the early stages of it now.

The money system is one of the most powerful areas that should be focused on. A passive way to weaken the enemy and build influence from within an already established system is a currency of your own.

I suggest a currency in physical form. 'Liberty Chips', simply plastic tokens printed by a 3D printer. Each token having a unique stamp that can be verified online in the database to stop counterfeiting.

As it is a 'hold-in-your-hand' currency, more people would be willing to adopt it, collect and trust in its capability. The currency could be handed out to willing adoptees at the start and used to purchase/trade items and services with like-minded people, it would naturally outsource as time went on.

Dee

54. The Situation Is Dire

The situation is dire because, having planned this world great reset in expensive, meticulous detail for decades, the WEF has placed its globalist leaders, ministers, top officials in charge of countries and their levers of power all around the world. It is dire because ordinary people do not see or believe traps. Tightening controls and harm are being placed around us by those we trust. This, as some realists fear, means it could be left too late to stop a dystopian existence.

What to do, what hill to stop it or die on? Well, without water and food, and preferably sanitation, we shall all die anyway. A diet of impregnated with anything, lab meat, bugs, maggot fat and soya is not going to keep us healthy beyond slave labour and transhuman

existence. So, the hill needs to be reservoirs, farms and distribution. Before they are bought, closed or compulsory-purchased as in Holland. The means every tractor, combine harvester, mobile farm machinery, water and fuel tankers, trucks, heavy vehicles, and if possible, fuel depots too. Aim to gridlock everything everywhere as much as possible, and not starve. Don't parley, they are engaged in death and have levers of death.

Farm Labourer

55. Britain Is a Common Law Jurisdiction

Britain is a common law jurisdiction. That means that any attempt by the government to lock us down in the 15-minute cities is a violation of the rights of the individual under Magna Carta and common law.

Under the terms of Magna Carta 1215 we, the people of Britain, have both the right and the obligation to bring the Crown back into compliance with the common law.

The way to do that is to remove, or render inoperable, the street devices that are intended to enforce the 15-minute city, and to refuse to pay any fines for non-compliance with Crown's unlawful demands.

If you are summoned to appear at a Magistrate's court to answer a charge such as criminal damage for removing or rendering this unlawful equipment inoperable, insist on a Trial by Jury, which is your right under Magna Carta 1215 and common law. A judgement by a Magistrate in the absence of a Jury verdict is unlawful under the terms of Magna Carta 1215 and common law.

Do not accept any verdict by a magistrate. Do not pay any fines. That way will bring the Crown back into compliance with common law.

David Ellams

56. Those of Us Who Know

Those of us who know we have been seriously lied to have found each other; found ways around censorship; exposed the propaganda; and spread the word.

We must use our only common thread— our opposition to the globalists in power— to overcome the fragmentation of our collective power.

We achieve this by delegitimising the government. We spoil our ballots at the next election by writing 'Spoilt Ballot' across it, and 'I do not consent'. We will not put an 'x' in any box. Spoilt ballots are counted and declared. We can be larger than any party that wins.

'Not voting' plays into their hands as they assume tacit agreement with whichever party wins. 'Spoilt ballots' are both counted and declared, so have the effect of showing our combined might against them and their systems.

Crucially, our common law gives us the right to refuse to follow their laws if our count exceeds theirs, delegitimising them, causing the fall of govt and system.

We need the 80% who didn't vote to turn up and spoil their ballots.
Even if half or quarter do so, we are collectively likely to be first or second as a group.

Tony Lovell/English Constitution Party

57. The Key to Change

We must teach the younger generation to think critically. Without this ability they, and therefore we, are lost. We must strive to seek the truth no matter how difficult it is to accept. Only then can we find the path that will lead us from darkness and into light.

It isn't enough to understand the situation we face. We must set an example for those who have not yet awoken to the reality. An unhealthy man cannot hope to convince others to live a healthy lifestyle, and so it's the same with us. If we believe cash is freedom then we must use it. If 15-minute cities, digital identification and 5G towers pose a genuine threat, then we must convince others of the danger too. Post leaflets, spread the word.

The key to change begins with us. It is of the utmost importance to speak of the truths we discover. There may be resistance and even ridicule, but if the seed isn't planted it won't be possible for the tree of knowledge to grow. And once it does, rest assured that its branches will spread out further still, awakening all those it touches...

Stephen James Gray

58. The Hidden Enemy

To defeat the hidden enemy, we must teach ourselves to become aware of the tools he would use against us. The deceiver is clever and does not openly show his hand. Propaganda and lies are his weapons. We must learn to live without the things he tempts us with – things that would form the lock to our own prisons, trapping us forever should we allow it. Insidious, shining trinkets, sold on the pretext of making life easier, they distract us while dulling our senses to the reality of what is truly going on. Given to children and the elderly alike, once they have taken root it becomes difficult to live without them – to go back to the old way of life. They promise much, yet deliver so little.

To defeat the hidden enemy, we must be alert to his false narrative, spoken in soft tones through shining screens. Crafty is the deceiver, and the lies he spins are difficult to unravel. What may seem good and beneficial, could lead us into darkness. Look closer, delve deeper. Seek out the truth that will shine a light on the one that lives in the shadows, and he will deceive us no more.

Stephen James Gray

59. In Readiness

One of the worst things to have emerged from the great global scam is that many now feel unable to trust the medical profession. Perhaps they are paranoid but I do not think so, and even if they are, who can really blame them? The last few years have given me good reason to be cautious too, so I look after my health. I suspect I will need it in the years to come. A good diet and fitness routine are essential if we are to overcome the trials that lie ahead. Watch what you eat and exercise regularly if you wish to postpone a trip to the General Practitioner, who may or may not be available to see you. If possible, grow your own food. At least you can be sure it will not contain the chemicals that will dull the light in your eyes and the fire of your spirit. Read widely, print out and share useful information lest it be deleted and lost forever.

And most of all, do not be afraid.

You were awake whilst those around you were asleep. Now we must help them to open their eyes too, so we can move forward together.

Stephen James Gray

60. Taking Back the Asylum

Words are powerful things, mightier than the sword and far more destructive. We cannot afford to let the enemies of freedom and their unwitting acolytes to confuse us by taking over our language. They will use every weapon at their disposal, including meaningless nothing words which serve only to infuriate anyone capable of rational thought. We must not allow the disciples of ignorance to police our words so that their masters may be better able to control us.

There are companies that encourage their employees to wear badges describing their preferred pronouns, be it 'he', 'him' and 'his' or 'zi', 'zer' and 'zem.' There are those that insist that a woman is a man and a man is a woman, as well as those who appear unable to describe what it means to be either. This is a form of madness that has begun to infect our society at the deepest level and we must not allow it to blind us to the truth. When confronted with this madness we must be prepared to speak out against it, lest we condemn future generations to grow up in a world that has collectively lost its mind.

Stephen James Gray

61. They Are Coming at Us

They are coming at us from every direction. Here I confine myself to one tactic being deployed– the weaponisation of words. This includes the inversion of the meaning of words, and the manner in which they are used.

They describe abortion (i.e. murder = pure evil) as 'pro-choice' (i.e. an implied good) and

ascribe agreeable adjectives, such as 'plant-based', to what are, in fact, 'frankenfoods'. They wish to make us more 'resilient', they tell us, while impeding our ability to support ourselves. And still, we sit back and allow them to claim, with their perverted words, that they are working for our good.

Let's start disabling their weaponised words by, firstly, addressing them, correctly, as our employees e.g. use the header 'Regarding YOUR submission on the proposed x-y-z legislation' (let THEM submit). Tell them what we require them to do, as our SERVANTS. Let's stop pandering to those we employ, and allowing them to set the terms of engagement. Let's start calling them out on their twisted terminology.

If you're worried about being identified online, use anonaddy.com, which anonymises emails. Its widespread use would disable their digital web of deception, by decoupling senders from messages on a large scale.

Jacqueline H

62. This Is the Final Battle

This is the final battle. Are you ready? This is a multidimensional war between God and evil, light and dark, natural creation and AI.

God, our Lord Jesus Christ, Mother Mary, the angelic realms, ascended masters, higher dimensional beings and many E.T.s are assisting us, on many levels, in, on and off the Planet.

But we have to actively do our part in physicality too. The implementation of their evil plans requires our compliance. We must resist to stop them. As digital warriors we must tell the world the truth, and say NO! collectively to the CBDC and 15-minute cities etc. We need to oust the current leaders and become leaders ourselves, to create the world we want to live in.

And also use the power of prayer. 'Ask (for strength, guidance and victory) and you shall receive'. Prayer isn't just for the religious; it's for all of us. As is meditation and visualizing the 'Golden Age'/'Heaven on Earth'.

We need to live in love and light, not fear. Light overcomes darkness. God is light, and we have God's light within us. We must shine our light to highlight and overcome evil. And we shall win this war!

Tricia Angelstar Davey

63. The Truth Must Be Told

The truth must be told.

A few evil and psychopathic people have inveigled their way to the top power roles on the planet via networks of seemingly unconnected groups.

A death cult having used our blood, sweat and tears for millenia to build their dystopian,

digital technoslavery system.

John Dee knew: the macrobes told him. Since then, the universe cities, the industrial revolution, silicon valley.

All of the world's resources squandered on building a technologically advanced world where people starve and die from misery, poverty and starvation, preventable disease.

Think of the utopia that would have been possible if those resources were used for the benefit of humanity instead of dead eyed psychopaths.

They believe themselves to be the new AI gods.

Truth is what will burst the hubris.

Truth shouted loud and golden from the rooftops.

Truth the vibration that shatters the highest edifices of lies and liars.

Those responsible, those complicit, pushing discord from on high with dirty money and pallets of bricks;

twisting our children with misbegotten ideas of justice and self identity;

astroturf protests ignoring the real issues,

despising our divine humanity will be exposed for all to see.

And there will be justice.

Lucy Gabriel

64. We Are the Force

We are the force 'they' must reckon with, not the ones pulling their strings. 'They' invent phantom threats to make us fearful, but 'they' are in fear of blackmail, and removal of their wealth and power.

'They' are expendable minions of parasitic entities. All must face justice, tell the truth about their crimes or await execution. Their ill-gotten assets will be our reparation.

We must win back those entranced, rejecting all attempts to set us against each other. Power is knowledge, of what 'they' are up to.

Share this: WEF wants to destroy the family, abolish private property and replace real food with synthetic fodder. It follows that livestock and family pets will be outlawed by 2030. Wooden 'skyscrapers' will house what's left of us: [youtube.com/watch?v=T9A17XEeFAk](https://www.youtube.com/watch?v=T9A17XEeFAk)

And this: thelightpaper.co.uk

'They' have also infiltrated the truth movement- watch out for whatever intuitively seems false/misleading. Our own source of goodness and light is watching out for us, pick up on the synchronicities He sends. Here's one:

truthsummit.info/?Rich%20Planet%20Update,%20Truth%20Summit%20and%20More

Laugh at them! 'They' hate it, and it diminishes them. Seen Schwab on the beach? Maybe it's not him, and too repulsive to share here, but he and the rest are just as ridiculous.

Teresa Bacon

65. It Isn't Surprising

It isn't surprising that after many years of challenging the globalist agenda many of us find we have become exhausted if not de-motivated as we continue to be vilified by the powers that prevail.

However, here are a few actions that individuals and groups can do to resist 'Agenda 2030'.

Use local shops especially, support small businesses. Pay with cash. If a business does not accept cash, then boycott it. Politely let the management know that you will be taking your custom elsewhere if payment choices are taken away.

Recently, I dined at a local restaurant who announced that they were going cashless in the near future. I left a review on a well known website about my 'cashless' concerns. The review was shared many times. The restaurant removed their cashless sticker. Imagine if everyone did this.

Ditch your un-social media accounts that are controlled by the globalist elite. Switch off your phone. Meet up in person with friends. Enjoy private conversations, hugs and hand-written letters. Stop using your phone for absolutely everything, claim back your privacy.

Return your default setting to 'offline' and you will be well on your way to a better life.

Joella Public

66. The Great Reject

The sacrosanctity and sovereignty of the individual has no place in the transhumanist and technocratic world envisioned by the 'controllers' who are determined to eradicate anything that smacks of being 'human'.

But as sovereign beings, we are not duty-bound to accept their diabolical plans which, if implemented, will affect every living person on this planet. With our ingenuity and creativity, our innate sense of fairness and intuitive sense of right and wrong, we can create the world we want to see and be the change we want to be by building local communities, pooling resources and skills and sharing best practice. This can be done quickly through efficient global communication channels.

Then we can say, 'No! We reject your Great Reset because it does not tick the boxes of what it means to be human. We shall take responsibility for our actions and live in harmony with nature, we shall grow our own organic, nutritious food and not exploit other humans or their environment. We shall farm in ways that respect animals and encourage wildlife to thrive and we shall heal ourselves holistically through natural cures that complement the complex systems of our miraculous bodies.'

We will build back better!

Sally D

67. Those of Us Who Have Been Paying Attention

Those of us who have been paying attention will know that the vice of totalitarianism is tightening around societal freedoms. However, the self-appointed controllers have been spooked and, after a couple of thousand years behind the curtain, they have been forced to reveal themselves and to lay out their arsenal of control mechanisms before us. At first sight, their power looks insurmountable, but we have a unique counteraction– we can just say, ‘No’.

This sounds like absurd simplistic nonsense, but put it in the context of our positive human attributes: compassion, cooperation, playfulness, inventiveness and determination. With truth as our driving force, we are already using these attributes without violence to neutralise and defy the bully boys. They have no real defence against these tactics except increased aggression, but if we do not rise to it, they become powerless. Anyone who has used this tactic against playground bullies will know it to be true.

Above all, this is a numbers game. The bullies have been described as ‘the 1%’, but they are far fewer than this– more like 0.01%. If we stand united against them and say ‘no’, their power melts like snow in June and their irrelevance is assured.

Rob Elliott

68. Cash Is Legal Tender

Cash is legal tender, no one has the legal right to refuse it. The more of us who insist in paying with cash, the more difficult it will be for currency to go digital. Leave the exact money if they try to refuse cash or shop elsewhere or tell them how they are losing 2% to the bank on a card payment!

Propaganda related to lockdown is all around us. Where you have a right to remove it, please do so, all of it, nonsense about washing hands saving lives, staying six foot apart, wearing face coverings and all the rest of it. No one has a right to display this nonsense; let’s get rid of it!

Much of the battle is to do with wording; ‘they’ condemn us as ‘conspiracy theorists’ and ‘anti-vaxxers’. Let’s reword the debate. It’s not ‘during COVID’, it’s ‘during lockdown’. It’s not a ‘face covering’, it’s a ‘face nappy’. It’s not the ‘National Health Service’, it’s the ‘National Hopeless Service’. It’s not ‘COVID’, it’s the ‘nobble’. It’s not ‘global warming’, it’s ‘global bollocks’!

Above all, do not accept their preconceptions and pseudo religious views. Protest brought down the Berlin Wall, it can be done!

Keith Brown

69. We Must Pray

We must pray. We must pray with all our heart.

A friend recently said to me that he thought prayer was just about making the person who prays feel better. I knew that was rubbish, however, I was unable to quickly refute him. I told him he was wrong and I would get back to him!

So I considered it. Well, for a start it is recorded that Jesus went to pray alone on several occasions. Doubtful this was just to make him feel better! He also taught his disciples how to pray, 'The Our Father'. Again, doubtful that this was just to make them all feel better.

Why do I say we must pray, and pray with all our heart? Because it is all a spiritual battle we're in and we need to do everything we can to fight it. The greatest weapon we have is prayer and in particular, the Holy Rosary. Anyone can pray this amazing prayer, Catholics and non-Catholics alike. How to Pray the Rosary can be found at thewhiterose.uk/pray-the-rosary.

Our Blessed Mother Mary, in many Church approved apparitions, has called for us to pray the Rosary daily as our greatest weapon.

Stephanie

70. My Concern

Where will you be
what will you say

when war with

laurel leaves

the wreath of honour weaves,

when wind,

while youthful years are spent

blows dry their tears,

when fear holds

hands with me

to frighten off the enemy

and darkness

shines its light

on my companion's longest night?

Where will you be

what will you say

when you remember

that hope and glory's dying ember
was blown away?

The NWO
has WON
they OWN
us NOW till we catch ON
and say: NO to all our WOE:
They are the ONE
who OWE!

Does it not matter?
And when this notorious group
finished building the longest loop
all of them thought they were in
for a greater surprise than a spin
of exaggerated particles
in the New Scientist's articles.
So when they announced it the other day:
Higgs boson- detected and here to stay
not for eternity but only a fraction
of a smashing hit and run interaction
I ask myself: does it not matter
that scientists will crack and shatter
Mother Nature into pieces
only to defend their thesis?
It's my concern
for soul and spirit
that we must earn
what we inherit!

Ingrid Seifert

71. The Wide Eyed Knowing

Some of us know from the word go, we are different. We are never part of the herd, people see us as an oddity. We will talk to anyone, not judging or worrying the per-

son in front of us is different. We incarnated to do a specific job, skills which are amazing. We all have these skills but they have been squashed by our culture, in some, way under the surface to the point we need something Big to kick it into being. That, I believe, is happening now.

For us who from that place in childhood have 'Seen' the world through different eyes, have experienced many of the highs and lows of life.

We have the utmost responsibility whether we thought we had been there, done that and could now have a quiet life, we were wrong. Too many things are falling into place for us to ignore. Fight the darkness engulfing, dividing and destroying families, cultures, tradition in our world and start over. We are strong, we are ready and we are fearless. Love and peace is our modern operandi but above all perseverance is key. Rally around peacefully. Resist this oppression.

Elaine

72. I Suggest

I suggest we return to meeting together— not under a religion, or political stance but locally. Like 'Stand in the Park'. We meet, eat, share. Maybe there is music and dancing and art making there. Embracing community.

Isha Harris

73. This Is a Rallying Call for Our Deepest Aspirations

How do we stop them?
We won't waste our time and energies on stopping them. We will not participate or give our attention to tyrants.

There are many possible futures, authoritarian, utopian and dystopian.

Authoritarianism cannot exist without us giving power freely or by coercion. Dystopia is from despair.

We did not join the previous mass psychosis. We learnt to be stronger, more united and informed.

This is the rallying call for our deepest aspirations. For beauty, for living and thriving well.

We will break free from the prism and prison of believing, freedom is escapism from failing destructive systems.

Our focus is on creating new ways of governance, law, food, health, energy, education.

We take responsibility for our own lives, society and futures.

Others will see and start to question their own compliance.

We are courageous in protecting each other from terror and propaganda management.

Knowing that if none of us stand for freedom, then all of us will live under tyranny.

We are educating our children and ourselves in new ways to relate, trade, create joy, equality and abundance.

We are speaking out, taking actions, dreaming, experimenting and creating. Investing and dancing with life giving possibilities for ourselves and those who follow.

Susan Harley

74. Imagine

Imagine unelected organisations having the power to dictate/control nearly all the World governments/banks; to control/censor all mainstream media, so no alternative views or debate; to create 'pandemics' then provide the 'cure'; to fix elections, place their puppets in key positions, pass unjust laws to suit themselves.

Life today can be likened to a gigantic global game of Monopoly, where there can only ever be one winner. The cabal will own everything and we will own nothing.

We are assuredly in a conflict. In past situations, in the old cowboy films, the cavalry always came over the hill to the rescue. This time the cavalry is you/me/us, and the sooner we realise this — the better.

In bygone times we had Jubilees, where periodically all debt was forgiven. This ensured that no individual/group had excessive power, wealth was capped.

De-centralise government, councils; localise public services with local, non-political staff.

Encourage individual responsibility.

Rebuild the family unit.

Address lack of community spirit, encourage meaningful connection with others.

Alternative Press/TV. Defund the BBC.

Defund/exit the WHO, encourage healthier lifestyles/natural medicines.

Adopt 'What the World Needs Now' as an anthem, after all, 'God is Love'.

Mev Berwick

75. Lost Souls

Ode to an absent MP

Like most MP's on the gravy train

All about selfish, mortal gain

You served Mammon, neglected your flock
But time's running out, tick tock, tick tock

The following is an adaptation of a church publication more than 60 years ago:

When, as a child, you laughed and wept;
Time crept
Then, as a boy, you played and talked;
Time walked
When you became a man;
Time ran
And, as you older grew;
Time flew
Soon, as you travel on, you'll find;
Time gone
Will Christ have saved your soul by then?

Mev Berwick

76. Support

Support and join those who fight for freedom.
Do not trust global technocracies; reject global governance.
Pray, meditate, and say no to the spiritual enemies of humanity.
Learn the law and gain knowledge of common law.
Prepare for food shortages, power outages, and financial collapse.
Build alternatives to ensure continuity of shelter, water, energy, food, and natural medicines.
Connect with like-minded people, speakeasies, and stand in the park.
Practise being independent and disengaging from the government's systems, such as media, health, education, and money. Switch it off.
Take responsibility for you, your family, and your children's education— teach critical thinking.
Most of all, stay positive, stay healthy, and learn to laugh at the madness.
Reconnect with nature, understand your terrain, the terrain of your body, and the wider world.
Resist the government narrative; the more cajoling, the greater the reason to question

and avoid, especially when bodily autonomy is threatened by toxins in vaccines, water, foods, and the atmosphere.

Millions of people, standing united, can win this war on humanity for the sake of future generations.

We are all here for a reason and have our part to play, so let's make our part count.

Ray and Carolyn

77. There Is No Silver Bullet

There is no silver bullet to stop them. We are losing the war if we tackled the plethora of their willful and unashamed assaulting against us. The human race is in the deepest crisis in history. We arrived at this point in world record time, because we trusted the idolized Darwinians and Newtonians, trying to improve God's Creation, being entangled in an accelerating spiral of obsoleting the latest technologies, scientific disciples dismissing non-scientific views, nonstop overreach by bureaucrats, and corruption compromising human values.

We now need to wake-up our people, that the government is blaming us for this crisis as we are overpopulating, polluting, loving cars, eating meat, owning high carbon-footprint houses, devastating arable land, releasing CO2, depleting resources, over-consuming, burning fossil fuels. Therefore, governments will take away our freedoms, possessions, luxuries and depopulate us to overcome this crisis and put the planet right. Their infamous tools are fearmongering, censorship and experimental injections.

Let's not panic over the time passing. Unfortunately, many people may suffer awaiting the ending of the mass formation (Nazi Germany 13 years, USSR 70 years). In the meantime, let's strike (Gandhi-style). Sufficient numbers, timing, training, high impact, risk management, and communication are keys to success.

Werner Geuther

78. Sadly

Sadly, most of the public are so conditioned to believe what they are told by our lying politicians and corrupt mainstream media that they don't even realise they are **being horribly abused**.

What's really sad is that the lies and deceits are so obvious. For example, the 'climate crisis' is presented as an existential threat but its pseudo-scientific justification **is threadbare**. You only have to look at the solid evidence which disproves the 'official' narrative.

The general public was easily fooled by the **Coronavirus 'plandemic' hoax**: prime all establishment bodies to pretend that COVID was a deadly virus (it wasn't), use the mal-engineered PCR test to generate scary numbers of 'cases', surreptitiously ban the use of cheap

and effective COVID early treatment drugs, euthanise large numbers of old people under cover of lockdown and fake their cause of death as COVID, use military-grade psyops to terrify the populace and coerce them into taking the dangerous vaccines and accepting vaccine passports.

Things will have to get a lot worse before the general public wakens up. Probably the best we can hope for is that we campaigners can spur on a nascent [awakening](#) by saying 'We told you so'.

Douglas Brodie

79. Form a Group

Form a group with like-minded people. There is strength in numbers and you can exchange ideas.

Make yourselves visible to the public.

Club together to buy leaflets to hand out to people in town centres, churches, sports venues etc.

It is important that as many as possible know about the serious crisis we are in, and have the necessary information.

Form links with other groups. The important thing to do is to get the message out there.

Many people just follow mainstream media, and have no idea how serious our situation is.

Reach out to all. View people with kindness. Suggest internet sites they can visit to find out more information.

Don't be passive.

Emphasise that 'we are many, they are few'. (Shelley)

We have to overcome this evil we are all facing.

This is a spiritual battle!

Josephine Munroe

80. What They Are Doing To Us

What they are doing to us is like death by a thousand cuts. Everything's negative and demoralising, such as the many local council 'initiatives' which make our lives a misery. They always have a plausible-sounding reason, but the end result is the same. I and several hundred other locals have had some success against the council, who were using a new government-granted power to enforce 'moving traffic' rules on box junctions.

The council proposed to apply this with cameras on several roundabouts. From inspection of the geometry by scaling from google maps, it could be seen that there was insufficient space in several locations for larger vehicles, including buses. This indicated that their proposals may be politically driven, without any reference to reality! When c. 500 (<0.2%

of target population) responded, the proposal was withdrawn.

Opposition on a local level may be the best way to undermine national government oppression, when repeated in different scenarios all over the country. For instance, Oxford's 15-minute city drive backfired, Birmingham's ULEZ couldn't cope with mass rebuttal. Thwarting of local governments' attempted restrictions can rebound on the national government's anti-citizen agenda.

Richard Bacon

81. How To Bring Down Unfair Government Policies

It has become clear to me that the best way to respond to the implementation of unfair government policies is to focus on moral arguments.

For example, we won't bring down Low Emission Zones (LEZ) which fines drivers in older, 'non-compliant' cars by having debates about air quality. We end this Dick Turpin scheme, for which fines in Glasgow start at £60, by focusing on what is morally wrong about it.

LEZ fines are only meted out to those who can't afford to buy a new car. The wealthy, in their new cars and vintage Rolls Royce's, are not affected. The LEZ scheme is Economic Apartheid and this is a hard-hitting term which could be used when discussing this issue.

On the topic of COVID vaccinations, a Member of Parliament claimed on Twitter these have saved millions of lives and that only very few people have had serious side effects. I replied:

I can't wait to hear you spluttering in the dock 'I *thought* I was saving more constituents' lives than I was killing.' Dr Harold Shipman could have claimed that too. [#MurderIsMurder](#)

If comments resonate with people, they will go on to repeat them.

Moirá M. Malcolm

82. I Am Proposing the Thesis

I am proposing the thesis that the uber elite that were responsible for and pushed the COVID plandemic narratives are the same ones that were and are pushing the extreme Green Energy Reset. These are facets of one in the same agenda, which is complete global control and depopulation in degrees. The thesis is that these powers realize that a huge percentage of the world no longer believes their lies and ultimately will be coming for them. In light of this reality, the Green New Deal Energy Reset has moved into a high gear and that this is no longer a meaningful operation that has some legs of objective reasonableness to it. They know their days are numbered and they have now moved themselves into what would be classified as a 'scorched earth' policy territory. Their intention is to burn the entire planet down and take down humanity. Additional thesis which is optional:

I believe the root of this is Satanic. Jesus says in the gospel of John about the Devil: 'He comes only to steal, kill and destroy.'

Arnold Fishman

83. Are You Sick of Being Told

Are you sick of being told that we are in a heatwave whenever the temperature rises above 20 degrees? Watching an unending stream of illegals being brought in across the Channel by our own Border Force? Seeing billions poured into a war against Russia that we don't even understand? The police protecting Just Stop Oil, who couldn't name a climate scientist between them? Knowing that tens of thousands of people have been maimed or killed by the vaccines, while the media looks the other way?

And knowing that under Labour, LibDems or the Greens it would all be exactly the same? If so, you're not alone.

'You can feel like the whole world's gone mad, and it's just you. And I can tell you, because I am seeing it with my own eyes, that there is this huge, powerful network springing up'. Katie Hopkins, from her tour: Live, Laugh, Love.

Johnny Fisher

84. Aim

Aim: extensive human contact to ensure a significant percentage of the population recognises the political system is not fit for purpose.

Find legal means to prevent councillors or MPs standing for re-election unless they can justify the sources promoting their decision making and the integrity of their actions before committees holding a common list (from the White Rose?) of perversions of both citizen's God given rights and the sovereignty of their country. Replace with independent awake MPs.

UK joins the BRICS nations.

Method: begin with an issue people will already be uneasy with 'the sexualisation of children and the theft of their future'. Start local campaigns under this banner.

Take this campaign to influential groups over a three-week period. Include places of worship, schools, PTA groups, police, NHS services, political parties, county, town and parish councils.

Hire church halls and bring people back into debate over coffee and biscuits, bring in more history and more urgency.

Increase the number of connected issues to enlighten more.

Campaign for alternative awake parties to agree on this issue so only one alternative candidate stands in each seat and receives support from all.

Socialise, politely bring up issues wherever you are.

Linda Scotson

85. What Is Needed?

1 . A name– I suggest: 'It.Stops.Now'.

2. Marches, petitions, leafleting etc., against the WHO Pandemic Treaty/CBDCs/Digital IDs, vaccine passports and vaccine mandates. These are key battles.
3. Campaign to ban politicians/civil servants from joining/accepting-funds-from influencer organisations like the WEF.
4. Discuss/debate/analyse how committed/effective smaller parties/individual politicians in the larger parties are to fighting the globalist threat and which ones are toxic.
5. Raise awareness/support for the former group and encourage members to stand in vacant seats. Push good smaller parties to form coalitions/cooperate.
6. Tell politicians 'YOU are responsible for the excess deaths' and they must dissociate themselves from the globalist program NOW to avoid the noose.
7. Work with and learn from other existing resistance groups both within and outside the UK. Bring groups such as AfD (Alternative für Deutschland), Alliance Defending Freedom (US), ICAN etc to inspire/educate us at marches/rallies/online debates.
8. Demand pens/felt-tip-markers are placed in all voting booths. It is perfectly legal to vote in pen but the state only provides pencils in booths, leaving the door wide-open to paper-trail-free US-levels of election fraud.
9. Create The White Rose Award for best politicians/fund raisers/activists etc.
10. Together pray to God for his assistance and mercy.

United We Stand

86. They Must Be Stopped, and This Is

Why!

C OVID19 was a psycho-political operation, based on three key lies designed to make people afraid of something, and to believe the government had the answer:

Pandemics are defined by numbers and COVID-19 cases were countered using the PCR test. But too many scientists around the world stated this test was misused, and the number of cases and deaths were overinflated!

Those who tricked us over the numbers, then told us the only answer to the pandemic was an experimental vaccine. There was no other medical intervention available on planet earth! But too many scientists around the world stated alternative interventions were

available that could stop COVID-19. But this was hushed up and doctors were threatened with the sack if they spoke about it.

These same people told us their vaccine was safe and effective, and used coercive tactics to force people to take it. But now we know it is not safe or effective, and people are dying from vaccine side effects.

The people who peddled the above three lies have not gone away. They will be back, to continue their disgusting plan and must be stopped.

@DukeOfWestLancs

87. They Are Few But We Are Many

They are few but we are many— which is why, theoretically, we can leverage our superior numbers to destroy their various anti-human schemes by achieving mass non-compliance. But if we don't evolve quickly enough, our victory will remain a mere theory, and theirs will be a foregone conclusion.

At present, since they are united in achieving their dark vision for us, while we are divided in how to stop them, their success seems an inevitability. However, the truth is that it's not about them, it's about us.

To be victorious, we will need to transcend mere resistance and accomplish both individual and collective mastery. To be victorious, we will need to respond, not react. To be victorious, we will need to find out what unites us, not divides us; which is why, ultimately, we will need to master how to respond with our human spirit instead of reacting from our ego— because with unity, we will stop them.

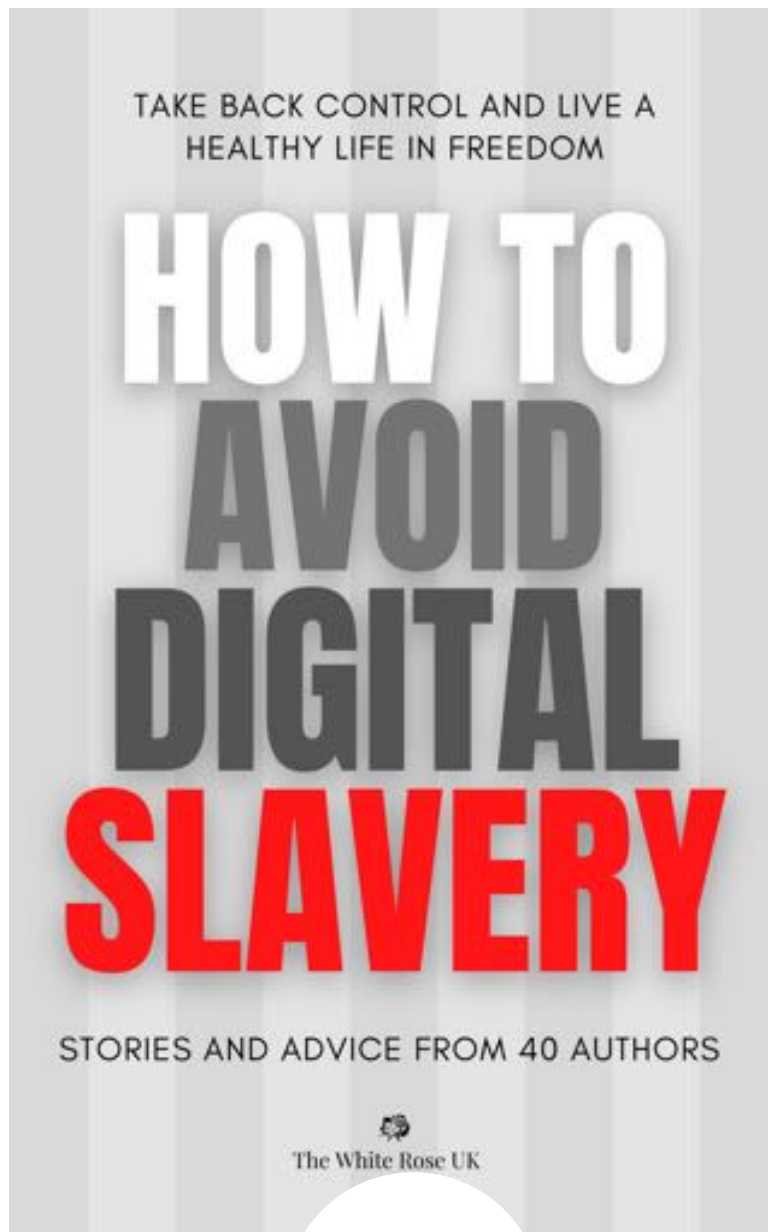

Alan Kay
