

Hi ,

We're updating our [Extenuating Circumstances Policy](#) and changing its name to make it easier to understand.

The revised **Major Disruptive Events Policy** will apply to all trips and Experiences taking place on or after 6 June 2024, regardless of when they were booked.

What's changing in the policy?

- Foreseeable weather events at the reservation's location are explicitly eligible for coverage if they result in another covered event, such as a government travel restriction or large-scale power cut.
- The policy will only apply to events in the place where the reservation is located. Events that affect a guest's ability to travel to the reservation are no longer covered.

Your continued use of the Airbnb Platform from 6 June 2024 constitutes acceptance of the updated Major Disruptive Events Policy.

Thank you for being a member of our community.

Regards,

The Airbnb Team
