Alas David, Commonsense is a flower that doesn't grow in everyone's garden. The Last 5 years of this Dystopia Tyranny carried out by both cheeks of the Uniparty whilst The Libtards and Cabbage Green party stood by cheering on the sidelines prove it conclusively.

Then we have "The 🐑🐑🐑" who have already forgotten The Unbridled Cruelty inflicted upon The Elderly via Midazolam & Morphine protocols, No Family visits, DNR Orders pushed by Doctors who should know better. Closing Schools despite Children being at ZERO RISK (we have the "teachers" and their unions to thank for that). The Closure of Society for an illness (the common cold) that had a 99.98% recovery rate. Track and Trace, Useless PCR Testing, A Fear and Propaganda Campaign Driven by The Charlatans in Parliament and Aided & Abetted by Every Lamestream Media Outlet.

All to bring in an Untested Unproven and Now Known To Be Lethal mRNA Biological Weapons Roll Out. Now even with The Deaths/ Cancer/Stroke/ Heart Attack Rates Going Off The Charts The 😊🐑🐑🐑 Will Ignore All The Facts Because The Pubs Are Open, The Football is back on, and They Can Go On Holiday. Notwithstanding the millions of invaders we're paying for, The Geoengineering, and worst of all The Grooming Of The Children at the hands of all involved.

Back in the not-too-distant past all those involved would have been dealt with before any of this had gotten off the ground, because back then The Majority of The Public had Commonsense and an ability to Think Critically.
